**PETITION FOR UNCOOPERATIVE INVENTOR
IN RESPONSE TO NOTICE TO FILE MISSING PARTS**

Sir:

In response to the Notice to File Missing Parts mailed 12 December 2003, a copy of which is attached hereto, please accept this petition under 37 C.F.R. §1.181 pursuant to 37 C.F.R. §1.47(a).

Petition Under 37 C.F.R. §1.47(a)

1. Mr. Michael Howard (co-inventor) signed an oath and declaration in the above-identified patent application ("Patent Application") and through the undersigned attorney hereby requests acceptance of the filing of the Patent Application on behalf of himself and the non-signing co-inventor, Mr. Robert Moss.

2. Mr. Moss received a copy of the Patent Application (including specification, claims, drawings and oath and declaration) on 9 January 2004 at his last known address by certified mail return receipt requested (a copy of the cover letter and return receipt is attached hereto).

3. Mr. Moss contacted the undersigned attorney on 3 February 2004 by telephone. In that conversation, Mr. Moss confirmed his receipt of the Patent Application and explicitly confirmed his earlier refusals to sign the oath and declaration. Mr. Moss' reasons for refusal are discussed below in the Statement of Relevant Facts.

Statement of Relevant Facts

4. Mr. Moss was terminated as an employee of LSI Logic Corporation (Assignee of the Patent Application) prior to preparation of a first draft of the Patent Application.

5. Mr. Moss received an electronic copy of a first draft of the Patent Application on or about 28 May 2003 by e-mail from the undersigned attorney (copy of the e-mail attached hereto).

6. Mr. Moss responded in an e-mail (copy of the e-mail attached hereto) to the undersigned attorney on 28 May 2003 that he had spoken with LSI representatives and agreed to review the Patent Application only in final form after review by co-inventor Mr. Howard (still an LSI employee).

7. Between 28 May 2003 and early September 2003, Mr. Moss made some time to review drafts of the Patent Application including a draft sent 18 August 2003 that was deemed acceptable to co-inventor Mr. Howard.

8. In an e-mail dated 14 September 2003 from Mr. Moss to the undersigned attorney (a copy of the e-mail is attached hereto), Mr. Moss summarized his reasons for refusing to sign the declaration. In essence, Mr. Moss expressed concerns that the claims were too broad and may cover aspects of the concept that he did not invent while an LSI employee.

9. Co-inventor Mr. Howard signed the oath and declaration on or about 18 August 2004.

10. The Patent Application was filed on 18 September 2003 without Mr. Moss' signature.

11. Prior to preparation of this response, on 9, January 2004, the undersigned attorney forwarded a copy of the Patent Application as filed (including specification, claims, drawings and oath and declaration) by certified mail return receipt requested to the last known residence address of Mr. Moss and again requested Mr. Moss consider joining the invention by signing the oath and declaration.

12. On 3 February 2004, the undersigned attorney spoke with Mr. Moss and Mr. Moss confirmed his receipt of the letter of 9 January 2004 and reiterated his refusal to sign the oath and declarations for the reasons stated earlier.

Conclusion

Applicants hereby have petitioned under 37 C.F.R. §1.181 pursuant to 37 C.F.R. §1.47(a) for acceptance of the above-identified patent application without the signature of one co-inventor, Mr. Moss, who has refused to sign the oath and declaration. Applicants have included proof that Mr. Moss received a copy of the patent application (including specification, claims, drawings and oath and declaration) from the undersigned attorney and that Mr. Moss has refused to sign the oath and declaration. Applicants have summarized and provided a copy of an e-mail with reasons provided by Mr. Moss for his refusal to sign the patent application oath and declaration and a statement of other pertinent facts relating to Mr. Moss' refusal to sign.

The Commissioner is hereby authorized to charge appropriate fees to the deposit account 12-2252 associated with this patent application. Fees due should include the surcharge for missing parts pursuant to 37 C.F.R. §1.16(e) (\$130) and the petition fee set forth in 37 C.F.R. §1.17(h) (\$130). The Commissioner is also authorized to charge any additional fees which may be due in connection with this submission or credit any

overpayments to deposit account 12-2252. Should any issues remain, the Examiner is encouraged to telephone the undersigned attorney.

Respectfully submitted,

**PETITION TO ESTABLISH PRIOR RECEIPT IN THE USPTO OF
ITEM CONSIDERED AS OMITTED IN NOTICE TO FILE MISSING PARTS**

Sir:

In response to the Notice to File Missing Parts mailed 12 December 2003, a copy of which is attached hereto, please accept this petition under 37 C.F.R. §1.181 pursuant to 37 C.F.R. §1.53(e)(2).

Petition Under 37 C.F.R. § 1.53(e)(2)

Applicants hereby petition under 37 C.F.R. § 1.53(e)(2) for a review of the determination as indicated in the Notice to File Missing Parts of Nonprovisional Application, dated December 12, 2003, that an item was omitted from the application.

1. Applicants assert that drawing Figure 4, which is indicated as omitted, was, in fact, submitted to the USPTO with the original application papers filed on September 18, 2003.

2. Attached hereto are copies of the following documents which evidence deposit of drawing Figure 4 with the original application papers:

- (a) Utility Patent Application Transmittal indicating that 4 sheets of drawing figures are enclosed;
- (b) Certificate of Mailing via Express Mail indicating that 4 pages of drawing figures are enclosed; and
- (c) Return postcard stamped by the USPTO indicating that 4 pages of drawing figures were received.

3. Also attached hereto are copies of the 4 sheets of drawing figures submitted with the original application on September 18, 2003.

4. The Commissioner is authorized to charge the petition fee in the amount of \$130.00 to Deposit Account No. 12-2252.

5. It is respectfully requested that, upon grant of the petition under 37 C.F.R. 1.53(e)(2), the petition fee be refunded by deposit to Account No. 12-2252.

Conclusion

Applicants respectfully submit that drawing Figure 4, which is indicated as omitted, was, in fact, submitted to the USPTO with the original application papers filed on September 18, 2003, and request that their petition be granted. The Commissioner is authorized to charge any additional fees which may be due in connection with this submission or credit any overpayments to deposit account 12-2252. Should any issues remain, the Examiner is encouraged to telephone the undersigned attorney.

Respectfully submitted,

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

*Filing Date Granted***Items Required To Avoid Abandonment:**

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The signature of the following inventor(s) is missing from the oath or declaration:
Robert Moss
- To avoid abandonment, a late filing fee or oath or declaration surcharge as set forth in 37 CFR 1.16(e) of \$130 for a non-small entity, must be submitted with the missing items identified in this letter.

The following item(s) appear to have been **omitted** from the application:

- Figure(s) 4 described in the specification.

I. Should applicant contend that the above-noted omitted item(s) was in fact deposited in the U.S. Patent and Trademark Office (USPTO) with the nonprovisional application papers, a copy of this Notice and a petition (and \$130.00 petition fee (37 CFR 1.17(h))) with evidence of such deposit **must** be filed within **TWO MONTHS** of the date of this Notice. The petition fee will be refunded if it is determined that the item(s) was received by the USPTO.

II. Should applicant desire to supply the omitted item(s) and accept the date that such omitted item(s) was filed in the USPTO as the filing date of the above-identified application, a copy of this Notice, the omitted item(s) (with a supplemental oath or declaration in compliance with 37 CFR 1.63 and 1.64 referring to such items), and a petition under 37 CFR 1.182 (with the \$130.00 petition fee (37 CFR 1.17(h))) requesting the later filing date **must** be filed within **TWO MONTHS** of the date of this Notice.

Applicant is advised that generally the filing fee required for an application is the filing fee in effect on the filing date accorded the application and that payment of the requisite basic filing fee on a date later than the filing date of the application requires payment of a surcharge (37 CFR 1.16(e)). To avoid processing delays and payment of a surcharge, applicant should submit any balance due for the requisite filing fee based on the later filing date

being requested when submitting the omitted items(s) and the petition (and petition fee) requesting the later filing date.

III. The failure to file a petition (and petition fee) under the above options (I) or (II) within **TWO MONTHS** of the date of this Notice (37 CFR 1.181(f)) will be treated as a constructive acceptance by the applicant of the application as deposited in the USPTO. **THIS TWO MONTH PERIOD IS NOT EXTENDABLE UNDER 37 CFR 1.136(a) or (b).** In the absence of a timely filed petition in reply to this Notice, the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original application papers (i.e., the original disclosure of the invention) will include only those application papers present in the USPTO on the date of deposit.

In the event that applicant elects not to take action pursuant to options (I) or (II) above (thereby constructively electing option (III)), amendment of the specification to renumber the pages consecutively and cancel incomplete sentences caused by any omitted page(s), and/or amendment of the specification to cancel all references to any omitted drawing(s), relabel the drawing figures to be numbered consecutively (if necessary), and correct the references in the specification to the drawing figures to correspond with any relabeled drawing figures, is required. A copy of the drawing figures showing the proposed changes in red ink should accompany with any drawing changes. Such amendment and/or correction to the drawing figures, if necessary, should be by way of preliminary amendment submitted prior to the first Office action to avoid delays in the prosecution of the application.

SUMMARY OF FEES DUE:

Total additional fee(s) required for this application is **\$130** for a Large Entity

- o **\$130** Late oath or declaration Surcharge.

Replies should be mailed to: Mail Stop Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

RE: LSI 03-0172 Required Signatures

Dear Mr. Moss:

Enclosed is a copy of the above-identified patent application as filed on September 18, 2003. We have one last opportunity to obtain your signature as a co-inventor on the Declaration, Power of Attorney and Assignment documents.

Please sign the attached documents and return them to me in the enclosed, stamped, pre-addressed envelope by January 23, 2004.

I appreciate your assistance on this matter and, as always, it is my pleasure working with you. Please contact me if there are any questions.

Sincerely,

Dan Fishman

Subject: First draft patent application

Attached is a PDF file with a proposed first draft patent application for the Secure Scan Mode invention.

The PDF password is the LSI docket number.

Please carefully review the draft and return any comments to me. In particular, please be certain the claims express the invention as broadly as you feel is deserved and also more narrowly with respect to your preferred and best known embodiments.

WE'LL WILL NEED TO GET MR. MOSS TO REVIEW THIS AS WELL BUT HE HAS LEFT THE COMPANY. PLEASE PROVIDE ME WITH ANY CONTACT INFORMATION YOU MAY HAVE SO THAT I MIGHT SPEAK WITH HIM AND SEND A COPY FOR HIS REVIEW.

Thank you.

Subject: Re: First draft patent application

Dan,

I wanted to let you know that I received the documents that you sent and that I have spoken with Pete Scott in LSI IP dept. I have indicated to them that I am only willing to do a final review for accuracy and intent w/o compensation.

If LSI chooses to provide me with the same compensation that an LSI employee would receive then I will be working with you, otherwise you will have to arrive at capturing the ideas with Mike Howard until final draft.

I apologize that you are caught in the middle of this.

Thanks,

Robert Moss

Subject: Re: Revised Final Draft Patent Application

Dan,

I have completed the review of this last revision of the patent. There are still some updates that will be required after your last round of changes to cover some technical inaccuracies as well as new typo introductions / naming inconsistencies, etc.. We will need to set up an evening teleconference to discuss the changes (They will not take you long to incorporate).

I am rather disappointed that none of the broad sweeping paragraphs that I requested be removed were taken out. I am also disappointed that some of the overly broad claims that I specifically pointed out and were not rewritten.

I can state that the claims, as written, attempt to patent prior art and most likely cover existing patents. I am not sure whether the PO will simply delete these claims, or require a rewrite (Deleting them may weaken the IP, I think it is in LSI's best interest to properly frame the claims to start with).

Though the broadness of the claims is a legal issue that LSI may wish to take on, I do not think that I can assign LSI ownership over claims that are so broad they cover things that I did not invent as a employee of LSI. I am bound now by the requirements of my current employer and any innovation that I contribute while employed by them I must assign to them, as I similarly agreed with LSI to assign inventions while employed

2/5/2004

by LSI. The broadness of the claims, even if unenforceable via the patent law, may be enforceable in the process of assignment. Therefore, if I am to pursue completion of the assignment with the claims as stated, I will need to have permission from LSI legal to disclose this application to the legal department of my current employer to see whether they will allow me to sign the assignment - or whether that will be in violation of the agreement that I have in place with them. (Basically, the claims force me to assign to LSI things which have not yet been invented since they cover more than variants of the representative implementation, but the complete class of all possible solutions to the problem)

I am really wishing that LSI had agreed to compensate me for this. I have been through three iterations, and will now have to perform a fourth. No-one at LSI is apparently reviewing these good enough to even catch typos. All I did was agree to perform a final review, but apparently LSI wants me to do all the review work and receive none of the compensation. My wife has stated I have spent way too much of our family's time on this (I of course cannot use time while at my current employer).

Since I help my wife taking care of our special needs son, along with the other kids, I will only make myself available post kid bedtime. If we can schedule a phone call later this week for 9-10 PM (may I suggest Thursday or Friday), if that does not work I can make time available during the day Saturday. In the mean time, you may want to pursue constraining the claims to the content of the invention, and if LSI legal is not willing to do that you should begin investigating the process of disclosing this work to my current company's legal department.

I might also suggest that if LSI thinks that further invention has occurred since I left, that they document that specifically and submit an additional patent application where I am not named as an inventor of said additional invention.

-Robert Moss

On Monday, August 18, 2003, at 12:39 PM, Fishman, Daniel wrote:

Attached is a PDF file with a proposed revised final draft of the Secure Scan patent application.

The PDF password is the LSI docket number.

The file includes a clean copy of the final draft, a copy marked to show changes, the near-final figures (the word "mode" is being changed to "test" in the formal figures in the hands of the draftsman), and new signature documents.

Mr. Howard, Mr. Moss had a few comments for additional changes. Also I realized that the title was incorrect on the Declaration and Assignment that was prepared. The Power of Attorney signature we have from you is fine. Please review the changes made and, if acceptable, print and sign the Declaration and Assignment documents at the end of the PDF file. Please print them single-sided (not 2-sided print) and sign and date where indicated in blue ink. Return the signed originals to me at the address below.

Mr. Moss,

I made the changes you suggested. Mr. Scott wants the claims left as is. We would appreciate your signature on the Declaration, Assignment and Power of Attorney documents attached to the end of the PDF file. Please print them out (single-sided) and sign and date in blue in where indicated. Return the signed originals to me at the address below. If you cannot/will not sign the documents with the claims in the present state, please so indicate by return email as soon as possible. If you have questions about this, please feel free to contact me or Mr. Scott.

Thanks to all!
